Case Study

Our Methodology

Our Unique approach

Alliances

Resource Integration Solutions Enterprise:

RISE mission is to enable our customers with business value driven technology products, solutions and services in the cloud while they harness the value of their investments in existing technologies and legacy processes. To accomplish our objectives we adopted a global operating model of performing work On Premise only as required, maximum inside our Regional Competency Centers strategically located and enabling Virtual Work environment driven by experienced partners and advisers to ensure quality.

Inventrax:

Inventrax is a leader in traceability solutions for manufacturing, distribution and logistics industries. Inventrax provides a robust suite of hybrid applications with high reliability and low total cost of ownership for traceability needs in planning, execution and control stages of the business process life cycle. Inventrax products effectively address the track and traceability needs of industry by closing the information gaps that exist in disparate ERP's. Based in Visakhapatnam the port city on the east coast of India, Inventrax constantly focus on research and development in emerging technologies to meet the growing needs of businesses. Inventrax stands unique by providing cost-effective quality solutions to customers that suit their business model.

What next?

An opportunity to meet RapidoERP and HR Personnel for a detailed presentation and take the discussion forward.
